# Taking School on the Road with an RV Rental

*A trip in an **RV Rental** can be both **fun** and **educational**.*

More and more families are choosing to homeschool their children, and some are taking school on the road in an RV or "**Roadschooling**", taking advantage of the vast classroom the U.S. offers, filled with continuous learning opportunities.

An **RV Rental** is a great way to explore the country and take advantage of museums, libraries, historical sites and nature to enhance your child's learning. National Parks like **Yellowstone** and **Grand Canyon National Park** offer lessons in geology, geography, wildlife and more.

Many **National Parks** have a "**Junior Ranger**" **program** that can be a fun and educational activity, plus all 4th graders are admitted free.

**Colonial Williamsburg**, **Washington, D.C.**, and **St. Augustine**, the oldest U.S. city are just a few destinations that are full of history.

**Closer to home are these gems :**

**Hillsborough River State Park** offers living history lesson, from Fort Foster to the Seminole Trail. Kayak and canoe rentals allow guests to enjoy the scenic Hillsborough River and the only Class II river rapids around. The shaded campground offers both electric and water hook-ups.

**Fort DeSoto**, located in St. Petersburg (Tierra Verde), is listed on the National Register of Historic Parks. Travel back to 1898 and the Spanish-American War, explore the battery and immerse yourself in nature. Water and electric are available for RV camping and some sites sit right on the water.

## HELPFUL TOOLS

### **Nature Observation Kit:**

Binoculars, a compass, phone with plant ID app, collection bag, magnifying glass, camera, net and notepad.

**Backpack:** Invest in a good sturdy backpack for your student(s). Make sure it has lots of zippers and pockets to store things and a place to hold a water bottle on the outside.

**Journal:** Have each child select a journal at the dollar store that fits their personality and during the trip, write in it every day, keeping a travel journal.

[Silver Springs](#) is one of the America's largest natural springs. See the natural beauty of the crystal-clear water with a glass bottom boat tour. Explore the Silver River Museum and Cracker Village. Camping, hiking, dining and kayaking also available.

Take advantage of our **Back-to-School Savings** and explore [our fleet](#) to find the perfect RV for your needs.

**Tablet:** A tablet can be used for research, writing and more. For little ones, an [erasable writing tablet](#) saves space, trash and a few trees.

**National Park Pass:** The [America the Beautiful Pass](#) provides access to more than 2,000 federal recreation areas across the U.S., including National Parks. The \$80 pass is valid for one-year and permits entry of pass holder and occupants of non-commercial vehicles.

For the 4th of July Holiday we rented the Chateau 22 for a 1600 mile round trip. 3 nights on the generator. Everything worked great and even the generator worked perfectly.

We have rented many times from Suncoast and every time we are extremely satisfied. We just finished a 4 day weekend with the grandkids. This was their first time in an RV and loved it. We are always explained every detail to whatever RV we rent and they are always clean. We would highly recommend Suncoast RV to anyone that wanted a hassle free experience.

Thank you Andrew
